Clarksville Imaging Center Chooses eRAD PACS

Greenville, South Carolina – January 9, 2009 eRAD, an industry leader in workflow solutions through its native web-based PACS and Teleradiology software platform announced today the recent implementation of eRAD PACS at Clarksville Imaging Center in Clarksville, Tennessee.

Clarksville Imaging Center brings outpatient imaging services to the community that include Open MRI, CT and Ultrasound. According to Michelle DeRegis, Administrator at Clarksville, "Our mission is to be the leader in the community offering high quality, caring, diagnostic radiology services in a pleasant outpatient setting. We will anticipate and meet the priority health needs of our patients and referring physicians." DeRegis continued, "After an extensive study, we chose eRAD PACS based on its ease of use and state of the art web-based design that allows immediate access via the web to both our radiologists and referring physicians." In addition to web access, Clarksville has implemented eRAD's archiving, disaster recovery and integrated speech recognition modules.

According to Seth Koeppel, eRAD's Senior Vice President of Sales, "Clarksville joins scores of imaging centers throughout the USA who have chosen eRAD PACS to meet their demanding workflow needs and the needs of their referring physicians."

About eRAD

eRAD® and Image Medical® were founded separately in 1999 and merged in 2001. eRAD offers a standards-based, web-centric image management solution using leading-edge technology. eRAD PACS web-accessible archive, and workflow solutions are installed in over two-hundred fifty customer sites throughout the USA. eRAD's PACS and RIS solutions integrate full-featured RIS/PACS and image management with workflow tools for hospitals, clinics, imaging centers and physician practices. For more information, visit www.erad.com.

About Clarksville Imaging Center

Clarksville Imaging Center opened its doors in 2003, and has steadily increased in volume to currently performing thousands of imaging exams each year. CIC offers state of the art outpatient imaging services to the community, including Open MRI technology not previously available in the Clarksville area. Ease of access, timely reporting methods and quality patient care allow Clarksville Imaging Center to maintain a high standard of service for both referring physicians and patients alike.
