The logo for TotalCareIT features the word "Total" in a black, serif font and "CareIT" in a green, sans-serif font.

eRAD Adds TotalCareIT To Its Sales Channel

Greenville, South Carolina - January 14, 2010 eRAD, an industry leader in workflow solutions through its native web-based RIS, PACS and Teleradiology software platform announced today the addition of TotalCareIT of Melbourne, Florida to its reseller channel. TotalCareIT will sell and service the full line of eRAD's image management products. "We were seeking a PACS company with a proven product and a support organization we could rely on. eRAD meets all our needs," said Charles Berry, President of TotalCareIT.

"TotalCareIT has a unique combination of RIS/PACS experience and a strong IT capability. An increase in the need for IT savvy resellers in the PACS arena necessitates seeking out companies like TotalCareIT," stated Frank Baker, eRAD's Vice President for Channel Sales. "TotalCareIT is very well respected in their territory and has experienced staff," Baker added.

About TotalCareIT

TotalCareIT, a Woman-Owned Small Business established in 2001, provides a comprehensive menu of network infrastructure related products and services. Consulting, procurement, integration, management, business continuity and support, are just some of the valued services that we provide. Our staff consists of engineers, consultants, inside and outside sales people, technicians, and business operations specialists, who's collective experience in technology and business totals over 150 years. Beyond experience, our staff members hold various credentials from vendor/manufacture training and certification through to technology degrees.

About eRAD

eRAD, Inc.® was founded in 1999 and offers a standards-based, web-centric image management solution using leading-edge technology. eRAD PACS web-accessible archive, and workflow solutions are installed in over two-hundred fifty customer sites throughout the USA. eRAD's PACS and RIS solutions integrate full-featured RIS/PACS and image management with workflow tools for hospitals, clinics, imaging centers and physician practices.
