AiM Radiology Deploys eRAD's Web-based PACS Nationwide

Greenville, South Carolina – July 1, 2010 eRAD, an industry leader in workflow solutions through its native Web-based RIS, PACS and Teleradiology software platform announced today the successful deployment and hosting of eRAD PACS software as a service for AiM Radiology Medical Group of Anaheim, California and three imaging centers owned and operated by AiM radiology offering CT, X-Ray and stand-up MRI imaging.

eRAD's diagnostic viewing and PACS software is used by Radiologists and clinicians specializing in Muscular Skeletal analysis for the Medical Legal marketplace. AiM Radiology has introduced proprietary methodologies and software designed to perform complex AMA Imaging Measurements and assist Physicians with the aspect of impairment ratings, saving time and increasing accuracy of reporting on patient studies involving occupational injuries or accident claims

Sana Khan, MD, PhD, founder of AiM Radiology said, "We are delighted with the quality, speed, reliability and ease of reporting provided to our customers by eRAD's system." Khan continued, "Our business has flourished nationwide in the demanding Workman's Compensation and Personal Injury environment. Success has been achieved as a result of our ability to provide professional services quickly and reliably to our customers despite the unique challenges."

Abdul L. Saquib, General Manager, remarked, "AiM's focus on accuracy and objective analysis has brought us many law firms, as new clients, who value the easy access, prompt response and high-quality service we offer. We owe much of that success to eRAD's technically advanced systems and the unparalleled support and cooperation provided by eRAD staff."

"We are pleased to count AiM Radiology as another of the dozens of remote reading radiology group customers eRAD serves. AiM's creative approach to the specialized Medical Legal market niche has been a useful experience for us at eRAD and has enabled us to further improve our product's value to radiology groups and radiologists," stated Stephen Friedman, Executive Vice-President of eRAD.

About eRAD
