eRAD Adds Depth to its Sales Channel with Delta Imaging

Greenville, South Carolina – September 24, 2009 eRAD, an industry leader in workflow solutions through its native web-based PACS, RIS and Teleradiology software platform, announced today the addition of Delta Imaging Systems, Inc. of Nashville, TN to its reseller channel. Delta will sell and service the full line of eRAD's image management products. "An increase in the demand for eRAD solutions over the past 12 months necessitated adding resellers," stated Frank Baker, eRAD's VP for Channel Sales. "Delta is very well respected in their territory and has experienced staff in both the sales and service of PACS systems," Baker added.

"We were seeking a PACS company with a proven product and a support organization we could rely on. We also needed a highly configurable product, given the range of customers we serve. eRAD's value priced solutions fit the bill," said Loy Jackson, President of Delta.

About Delta Imaging Systems

Founded in 1985 by three ex-Philips service engineers, Delta Imaging Systems, Inc. has a long and well deserved reputation as one of the largest and most respected independent capital equipment dealerships in its three-state marketing area.

From its home office in Nashville, TN and satellite offices, Delta covers the states of Tennessee, Mississippi, and the Kentucky border area. Its sole focus is outstanding sales and service in the areas of medical imaging capital equipment, teleradiology, computed and digital radiology, and PACS systems. Delta's service reputation has made them consistently the vendor of choice for many facilities, clinics, and imaging centers. They are also widely recognized in the industry for their many innovative ventures in teleradiology, endovascular, and bariatric imaging.
