## **eRAD Expands Hosted Solutions Offering with Immedion Data Center**

**Greenville, South Carolina – November 7, 2008.** eRAD, an industry leader in radiology workflow solutions through its native Web-based RIS/PACS and Diagnostic Imaging Information Management Systems, announced today the addition of the Immedion, LLC data center for hosting customers off-site Teleradiology, PACS, and Disaster Recovery solutions. The Immedion enterprise level data center located in Greenville, South Carolina. eRAD, Inc. continues to expand cost effective, high availability, and disaster recovery services to assist customers in their business expansion and IT needs. All hosted services are designed with full HIPAA compliance and can utilize the fully redundant and critical IT infrastructure provided by Immedion's professional 24/7 data center staff and facilities.

Randy Phillips, Vice President of Operations at eRAD stated, "I was immediately impressed with the Immedion professional staff and commitment to customer satisfaction. Investigation to expand eRAD's Hosted Solutions into Immedion's Data Center environment led to an easy decision based on the full featured, total commitment solutions from the Immedion Team. We look forward to rapid expansion and deployment of continuous healthcare hosted services at Immedion."

According to Frank Mobley, Immedion's Founder and CEO, "eRAD and Immedion form an ideal partnership and we are committed to the success of eRAD and eRAD's customers."

Rob Moser, Immedion's Co-Founder and Chief Operations Officer said, "eRAD's need for 24x7 uptime and availability exemplifies why Immedion is in business. We look forward to expanding an already strong relationship with eRAD and fulfilling their enterprise hosting needs."

### **About eRAD**

eRAD® was founded in 1999 and offers a standards-based, web-centric image management solution using leading-edge technology. eRAD PACS web-accessible archive, and workflow solutions are installed in over two-hundred fifty customer sites throughout the USA. eRAD's PACS and RIS solutions integrate full-featured RIS/PACS and image management with workflow tools for hospitals, clinics, imaging centers and physician practices.
